Cook's Super Giant Gladioli

The Gladiolus is one of the most decorative plants in the garden, and as a cut flower lends itself to any arrangement.

If the spikes are cut when the lowest flower is in bloom, the others will open in succession and remain fresh a week or ten days. No other flower has gained more rapidly in the public favor than the Gladiolus; this could not well be otherwise, for in addition to the great intrinsic merit of the flower, it is hardy and blooms the first season from bulbs.

Gladioli will thrive in almost any good soil except a stiff clay.

In the autumn, before freezing weather, they should be dug up and the tops allowed to dry down, after which the dry tops, earth and old bulbs can be removed. Store in a cool dry place, secure from frost until spring planting time.

There is perhaps no flowering bulb of such easy culture, embracing the great range of color with endless combinations and variety, to equal the Gladiolus. Our bulbs are of the finest quality and will give bountiful satisfaction the first season. Complete cultural directions with each order.

Be sure to order a good supply and enjoy the beauty of this handsome flower.

Resurrection Plant

The Mexican Resurrection Plant is Nature's Greatest Novelty. Sometimes called the ROSE OF JERICHO. This exceedingly rare and wonderful plant in its dry state, is a shrunken ball of tightly coiled leaves and stems, apparently dead. In this form it will live a hundred years or more. When immersed in tepid water—the leaves unfold, and the whole plant is quickly resurrected and transformed into a rosette of beautiful velvet green both old and marvelous. It can be resurrected again and again indefinitely—if allowed to curl up dry each time. Do not plant them. The whole plant kingdom cannot show anything so marvelous. Mentioned by Isaiah in the Bible. It is a rare, marvelous plant. 10 cts. each, 3 for 25 cts. or 15 for $1.

GILT EDGE NOVELTIES
And Specialties of Superior Merit.
HARDY, QUICK GROWERS. EXTRA QUALITY. IMMENSE YIELDERS.

NEW PERFECT CUCUMBER--A GREAT ACQUISITION.
The Greatest Cucumber Ever Introduced. Should be in Every Garden.

This new variety where known is the most popular of all. Ideal shape, perfect size, and in eating quality surpassing anything ever grown. It is enormously productive, tender and brittle, and the handsomest of all cucumbers. It often brings double usual price in the markets. Vines are healthy and vigorous, and are "everlasting" bearers. What more need be said? Large Packet, Selected Seed—10 cents. 3 for 25c. 12 for $1.00.

RED BEAUTY BEETS. HANDSOMEST EVER INTRODUCED.
A Real Gem for Every Home Garden, and of Great Value for Market.

There is a treat in store for every one who plants these new and splendid beets. They are the handsomest ever seen,—and the surest and quickest growers. To grow them once is to grow them always. Very perfect in shape, good size, globular form, smooth skin, small top. Flesh very fine-grained, sweet, tender—brilliant red color.

Specially adapted to the home garden—being extremely early and retaining their freshness and high table qualities so long. Are excellent keepers and make a fine winter beet if planted in July. Beets are one of the most important vegetables all the year round, and can be used in many ways. Everyone should have an abundant supply of the very best. I hope every customer will plant the Early Red Beauty. Packet 10 cts. 3 for 25c. 12 for $1.00. Extra Selected Seed.

To My "25 Year" Customers.
Many have written that they have used my seeds for 25 years. I wish a complete list of such. If all 25 year customers will write mentioning this I will be grateful, and still more so if they will also send their Photo.

Address, COOK SEED CO., Waterford, N. Y.

Never in the history of bean culture has so valuable a variety been found as this Golden Wax. If you have not planted it you do not know what the perfection of beans really is. The pods are long, brittle, and TIRELY STRINGLESS; of the richest golden color, and borne in the most marvelous profusion.

Deliciously tender, rich and buttery: a prodigious yielder. Unexcelled both as a snap bean and a shell bean for winter use. Plants are extra robust and hardy. Beans never rust or blight, a feature of the greatest value. It stands on the pinnacle of perfection.

Whatever other good things you overlook in this catalog—do not miss planting these beans.

Extra Large Packet, 10 cts. 3 for 25 cts. 12 for $1.00.

New Vegetable Peaches.

I am proud to have been the original introducer of this very valuable and popular little fruit, that should be in every garden. They are the most beautiful of all vegetables, growing on vines like melons. They resemble oranges in color, shape, and size.

The flesh is snow-white and makes handsome, delicious preserves, and sweet pickles; may be fried like egg-plant, and are fine for mangos.

There is nothing like them. Extremely early, of the easiest culture, surprising yielders, covering the ground with its golden fruit. They grow from the seed in 80 days. I am sure you will be very much pleased with it.

Directions for growing—use of fruit, etc., on each pkt. Packet 10 cts., 25 for $1.00.

South Rhubarb, or Pie Plant.

Itis stalks are much used stewed, and for pies, tarts, etc. Every garden should have a good supply of this excellent vegetable, and truly healthful vegetable. This variety is far superior to the common sorts, and produces immense stalks VE-ERY EARLY in the spring. It has a rich, spicy flavor. Rhubarb is of the easiest culture, and commands a ready sale in all markets at good prices—coming when fruit and vegetables are scarce. Pkt. 10 cts.

Cook's Seeds Make Successful Gardens.

A. T. Cook. Dear Sir:—Last year's garden crops were the richest and most successful ever, and we place this testimony all the more in favor of Cook's seeds. They have proved the best, and are more and more popular every year. I shall place all orders with you. I got a very big club order in a single day. I will send you many more.

My Brother also is working for you. Yours, Richard E. Herd.

California Cream BUTTER LETTUCE.

This variety forms a mammoth, round, solid head; outside green, and within a rich creamy yellow. It is particularly sweet and buttery in flavor, and makes handsome, delicious preserves, and sweet pickles; may be fried like egg-plant, and are fine for mangos.

A remarkable new variety, combining the grandest qualities. Easiest of growers, immense size, solid, crisp and brittle, nutty flavor, rich and delightful. You will find it a pleasure to grow this hardly, delicious, golden heart celery. It succeeds under almost all conditions. Pkt. 10 cts.

MONEY CROP.

Celery and celery plants are sure money crops. Almost incredible profits are often realized from a small piece of land. Encourage your children to plant a good sized bed. It will pay.

I Want Everyone to Know and remember—that I give MY Customers and Club Agents what others pay for cumbersome, painted catalogs, city help and extravagant advertising. I know seed-buyers will appreciate my efforts—for they get the benefit. I am prepared for a greater "landslide" of orders than ever before. Let them come. The seeds are ready and Premiums waiting.
MAMMOTH IGNOTUM TOMATO.

All should plant the new Ignotum Tomato. A "priceless paragon" in the tomato line. The earliest and most extra LARGE tomato. Bright red color, always smooth and solid, uniformly LARGE size. Why grow a poor sort when you can have such a variety as this? 

"Beware of cheap tomato seed.

Selected Seed. Packet 10 cts. 3 for 25 cts.

Monte Cristo Watermelon. Best Ever Produced.

Another year but adds to the popularity of this KING OF ALL WATERMELONS. The incomparable Monte Cristo is sweet and luscious beyond power of words to describe. It is the earliest of all the giant melons, and is, without doubt, GREATEST YIELDER EVER KNOWN.

Often weighs under ordinary cultivation 60 lbs. or more. One of the sweetest, juiciest, crisp and most solid melons ever produced. Very easy to sell from its handsome appearance and exquisite quality. It is the GREATEST MONEY MAKER.

Headquarters Stock, Selected Seed, pure and true. Large Packet 10c. 3 for 25c, 12 for $1.

Japanese Nest-Egg Gourd.

This new and beautiful variety varies in size from a pigeon's egg up to a goose egg, but mostly the size of hen's eggs and so exactly the shape and color, as to almost deceive the eye. The shells are hard and durable, and make the very best eggs, as they neither freeze or crack. The Nest-Egg Gourd is a rapid and desirable climber; quickly covering old sheds or any unsightly object with a mass of green foliage, thickly dotted with beautiful white eggs. Boys you can make lots of money growing this gourd, and selling them to your neighbors for nest-eggs. Packet 10 cts.

NEW GIANT FANCY EARLY COSMOS.

These exquisite flowers should be in every garden. They are of marvelous size and beauty—measuring 3, 4, and 5 inches across borne in great profusion. Colors pink, white, mauve, crimson, etc., delicately tinted and clouded. Blooms are varied, some plaited, cut and fringed. They are very pretty and lasting for vases, etc. Of the earliest culture, and blooms from July to Nov. Harvest 5 to 6 feet. Selected Seed, a superb assortment. Pkt. 10c. 3 for 25c.

Fragrant Tree Ferns

Very Rare and Wonderful Floral Novelty. Perfect marvels of indescribable fragrance. Delightful for cut-door culture. Charming for house plants. Don't miss these preeminent ferns. Nothing like them in the world. This Fern is annual, growing rapidly from seed. Plant in spring for out door and in summer for pot culture. Every packet will positively produce 25 or more of lovely Ferns. It always pays to make home beautiful. It's only 25 cts. per packet.

Early Jersey Wakefield Cabbage.

This is preeminently the best extra early cabbage in the world. It is of large size for so early a kind, and is well deserving its popularity. It heads up remarkably hard and solid; can be planted early, and is very desirable for early market. Pkt. 10c. 3 for 25c.

Extra Large, full packets (3 times the usual size)—only 10 cts. 3 for 25 cts. 12 for $1.00.

BROAD LEAVED SAGE.

Sage is most extensively used of all herbs for seasoning. The leaves and tender tops are used in stuffing, sauces, etc., etc. Sage has many medical properties. Now early and thin to 12 inches. A bed will last many years. Have you a bed of Sage? If not, now is a good time to plant one. Packet 5 cts.
TRUE CHICAGO PICKLE CUCUMBER.
This has become a standard variety, and is undoubtedly the best Cucumber for pickles, and is used almost exclusively by the most progressive pickle factories. The fruit is of medium length, pointed at both ends;

NEW EXTRA EARLY BEET.
I am glad to offer this new variety as one of almost inestimable value. How many of my Gardener friends believe that there is anywhere in existence, a nice, smooth, garden beet of deep red color, which will produce roots of suitable size for market 10 DAYS in advance of the old early sorts? Well friends this variety does that very thing: I was incredulous until I planted the seeds and tested them side by side, and watching their growth saw a finely formed root develop on every plant of this new variety before other early kinds began to bottom. The flesh is delicate, rich, and very fine grained. It is in every way an ideal Table Beet; beginning plants make splendid greens. Packet 5 cts. 6 for 25 cts.

NEW BROWN BEAUTY ONIONS.
A magnificent distinct new variety of greatest value. It is a marvel in earliness, ripening 3 weeks before red Wethersfield. Its keeping qualities are marvelous—no other can compare. A tremendous yielder—every seed producing a nice onion. Bulbs very thick—clear amber brown, flesh mild and pleasant. I trust all will try it. Large Packet, Selected Seed 5 cts. 6 for 25 cts. 24 for $1.00. 24 to 48 pkts. should produce $30. worth of onions.

EXTRA DOUBLE CURLED PARSLEY.
Parsley is a flavorful herb of highest culinary value. This superior variety has beautiful, mossy curled and crimped leaves, light brilliant shade of green, of extra fine quality. No one planting it once would ever be without it. The Leaves can be dried for winter use—or take up a few plants and store in the cellar in moist earth. Packet 5 cts. 6 for 25 cts.

CHUFAS, OR EARTH ALMONDS.
These very closely resemble in sweetness and richness of flavor a coconut or almond. Children are very fond of them, and each one should have a chufa patch. They are much grown in the South to fatten swine, poultry, etc. Directions for planting, etc., on each packet. Packet 10c.

White Plume, Self Bleaching Celery.
THE Earliest Variety.
This is the best of the so called Self Bleaching varieties, as it needs but little banking up. Its eating qualities are equal to the best of the older sorts being tender and crisp, solid, and of a pleasing nutty flavor, while its white feather-like foliage places it ahead of all others as a table ornament. More largely grown than any other. If any have failed to grow fine celery, they should try this. Pkt. 10c.

It Pays Well to Get a Club for Our Seeds.

Whatever You Do, do not plant old run-out varieties of Potatoes. Of all the follies of Gardening this is about the biggest. Plant Early Six Weeks. They grow so quickly you can raise two crops a year, even in the North. Be sure and order a good supply early.

Please Show Our Rare Bargains In Seeds and Premiums to Your Friends.
EARLY WINNICSTADT CABBAGE.
A well known and very popular variety; heads large, decidedly conical, remarkably solid and hard, even in summer. This is a sure header, a good shipper, and suffers less from the cabbage worm than any other sort; valuable for both summer and winter use. Market Gardeners and all others desiring a choice strain of this desirable cabbage should try my selected seed. Beware of cheap Cabbage seed, which is often grown from unsalable rubbish. Pkt. 1 octs. 3 for 25c.

Long Standing Spinach.
Spinach is a delicious vegetable either for spring or fall sowing, this variety is the gardeners favorite; it is a most attractive color, with thick, fleshy leaves of fine texture. Extremely hardy. Large packet 5 cts.

EARLY PURPLE TOP MILAN TURNIP.
The earliest in cultivation; adapted to spring or fall. The bulb is flat, of medium size, smooth, with a bright purple top; leaves few. The pure ivory-white flesh is of the choicest quality, solid, and fine grained. Very mild and sweet. Good keepers. Of great value to all private and market gardeners. Packet, 10 cts. 3 for 25 cts. 12 for $1.00. 24 for $2.00. By mail prepaid.

BOYS AND GIRLS, LOTS OF MONEY Can Be Made Growing Vegetable Plants.
I know you can. I used to myself. I have sold over $75.00 worth of Celery Plants alone in one season. Why not build up a profitable business that will increase every year? Cabbage, Tomato, Celery, Pepper, Cauliflower, Lettuce, Asparagus, Frishtaker Onions, and Egg Plant—all sell well everywhere, at good prices. Try it now. Raise a good stock, put out your shingle, take in the money and be happy.

Strawberry Tomato, or "Golden Husk.
ALSO KNOWN AS WINTER CHERRY AND GARDEN FIG.
Every garden in America should have a liberal supply of this remarkable fruit. It is one of my specialties. Probably no fruit ever grown makes such delightful, rich and handsome canned fruit and preserves. They make delicious pies, and superb fruitcake when dried in sugar like raisins. Very easy to grow, and ripen in 80 days. They yield abundantly in all parts of the U.S. and Canada. Fruit is golden-yellow, size of big cherries, fairly loading the branches down. You have no idea how delicious they are until you try them. Many call them equal to strawberries to eat out of hand. If left in their husks or pods and stored in a cool place they keep fresh and sweet all winter. Superior strain, selected seed—full directions for using, and instructions for growing, only 10c. per Pkt. 3 for 25c. 12 for $1.00. 24 for $2.00. 36 and 2 for $1.00. 2 pair Exquisite Lace Curtains for $3.00. Get up clubs. It is easy to sell this valuable seed.

PUMPKIN—KING OF THE MAMMOTHS.
This grand, colossal variety is without a rival; it astonishes everybody by its mammoth size and heavy weight. Indeed no other pumpkin has ever attained such enormous weights or been awarded as many prizes. Think of it a single pumpkin weighing 298 lbs. [See Cut.] Is not this the greatest of all pumpkins? The flesh and skin are a bright golden color, fine grained, and excellent quality. It is one of the best pie or table pumpkins ever grown, and a splendid keeper. I hope all enterprising pumpkin growers will give it a trial. You will be sure of a Prize at your County Fair. Full directions on every packet. Selected Seed, Pkt. 10c. 3 for 25c.

Cook's New Golden Cream Muskmelon
This new variety is so far ahead of other muskmelons—that there is no comparison. Extremely early, healthy rapid grower and great yieder of uniform melons of enormous size and rare beauty. The quality is too delicious to describe. All are enraptured over it. For Home use. Market and to exhibit at Fairs—none has ever been grown to equal Cook's New Golden Cream Muskmelons. Gardeners! this melon is a money-maker for you beyond compare. The sample melon you sent us was almost all solid meat and made a meal for three families, all good melon eaters. G. M. Lingenfelter, New York.

Price, Headquarters Seed—Selected from the finest melons—very scarce but we think we have enough to go around—Large Packet, only 15 cts. 2 for 25 cts. 4 for 50 cts. 10 for $1.00. Positively no more than 40 packets sold to any one customer. Order early to make sure. Don't get left. Price includes Premiums or discount as offered on everything in this catalog.

Cook's New Golden Cream and Paradise Gem Muskmelons should be in every garden.
Healthful, Delicious, Asparagus.

Don’t miss having an Asparagus bed. The True Palmetto is incomparably better than other sorts. It is earlier, double the size, finer quality, and a much stronger and healthier grower. Plant no other even as a gift. Asparagus is ALWAYS a big money crop. It is extremely healthful, and will do you more good than all the quack medicine and drugs ever made. A well made bed will give you an abundance for a lifetime, and will be worth a hundred times the cost. Don’t put it off. Plant a lot of seed. You can sell your surplus plants to your nabors at an immense profit.

Annual Chrysanthemums.

These glorious, showy, flowers grow readily from the seed, and flower freely during summer and fall months. They are very pretty and effective—and very fine for cutting. The foliage is rich dark green, finely cut and ornamental. I offer the finest selected mixed varieties—a full assortment of both double and single, in richest colors of crimson, golden yellow, striped, mottled, etc. They will be a surprise to flower lovers everywhere. Pkt. 10 c. for 25c.

COOK’S PERFECTION PARSNIP.

Rightly named, and without doubt the finest strain of a parsnip that can be produced. It is a wonderful improvement on the old sorts, and no one desiring to grow a parsnip would fail to grow this. The roots are very smooth and handsome, tender, sugary, fine-grained and of most excellent quality. Customers are unanimous in praising it.

This is truly a delicious vegetable, very fine stewed, baked, boiled, etc. All who do not like the old poorer sorts are recommended to try this.

It produces enormous crops; and the short, thick roots are easily gathered. It is without question the best for home use, market, or exhibition purposes.

While this is essentially a table parsnip—it is also superior to all others for stock feeding owing to its great size and extraordinary sweetness.

Large packet, selected seeds 10 cts. 3 for 25 cts.

“Your Perfection Parsnips were the best we ever had.” Lester Thompson, White Bear, Minn.

“We grew the finest tomatoes, cabbage and parsnips from your seed we ever had in our life. We had Perfection Parsnips 31-2 to 4 lbs. each.” Wm. H. Smith, Pa.

IMPROVED HUBBARD SQUASH.

There exists a keen appreciation for the Improved Hubbard Squash. Those familiar with this variety concede it to be one of the best and most reliable winter keepers of the squash family. For winter table use it is recognized to be just as standard in the home as sugar or flour. The demand for Improved Hubbard has quadrupled in two years. Cannot be too highly ex¬tolled as a Winter Squash; it boiles smooth and dry, of very rich quality, and keeps as solid as a rock. It is more popular with private growers than any other variety.

We recommend this carrot as possessing qualities of excellent merit. It is intermediate between Half-Long and Horn varieties, and is perfectly distinct. The shape is nearly oval and the color and quality all that can be excellent merit. It is intermediate between Half-Dong and heavy shape. The table quality is fine, and they sell tender core, and fine for home or market.

COFFEE BERRY.

A good substitute for coffee and great yielder. Do not brown it quite so much as Coffee. It is a wonderful food for chickens, also makes a rich food for stock when ground and mixed with bran and is one of the greatest milk producers. It ripens thoroughly in the northern states.

Large Pkt. 10 cts., 3 for 25 cts.

SUGAR OR HOLLOW CROWN PARSNIP.

This is a magnificent variety, and is a well known sort everywhere, and is one of the best for general cultivation. Is large size, and has long, smooth roots, and is a very strong grower, and is valuable for market, table use, and feeding to stock in winter and spring when vegetable food is required for health of people and stock.

Carrot Candy—Old Hebrew

Grate one cup of raw carrots. Dissolve ½ cup of sugar in one cup of water, and add ½ cup of honey. Cook grated carrots in the above mixture over a slow fire until clear. Then stir in a cup of chopped almonds. Pour on oiled plates and cut in squares. If almonds are not obtainable, try chopped peanuts or other nuts.

KOLH RABI.

It is an intermediate vegetable between the turnip and cabbage. Very delicious when cooked. Also de¬scribable for feeding to stock. They are considered in the best condition for eating when about 2 to 4 inches in diameter. Splendid for slicing in vinegar both raw and cooked. Easily grown, and cultivated as any vegetable, and it is almost equal to cauliflower somewhat. 

PRIZE HEAD LETTUCE.

Very early, forms a mam¬moth plant, and even the outer leaves are crisp and tender, and remaining so throughout the season in superb quality; and slow to run to seed. Outer leaves are tinged with redish bronze, and is very beautiful to look at. One of the finest va¬rieties ever introduced, forming a very large head, but not a leafy plant. For winter keepers of the best and most reliable. Is a well known sort everywhere, and is one of the greatest milk producers. It ripens thoroughly in the northern states.

GIANAT BOHEMIAN HORSE RADISH.

Grow more Horse Rad¬ish, it is far better than the old variety in strength and piquency. Prepare the moth plant, and even the outer leaves are tinged with redish bronze, and is very beautiful to look at. One of the finest va¬rieties ever introduced, forming a very large head, but not a leafy plant. For winter keepers of the best and most reliable. Is a well known sort everywhere, and is one of the greatest milk producers. It ripens thoroughly in the northern states.

Famous Prizetaker Onion.

ITS MILDNESS OF FLAVOR AND TENDERNESS ARE UNEXCELSED EVEN BY BERMUDA VARIETIES.

Without exception the grandest variety of yellow globe onion for our American climate. It is the largest, handsomest, finest flavored, and in every way the best. It is admittedly the largest of all; samples have been grown to the enormous weight of 5 POUNDS EACH.

With good care it produces wonderful crops everywhere; one report "over 1200 bushels per acre!" another I grew 180 bushels on exactly one-sixth of an acre.

Excels in Yield,
Excels in Size,
Excels in Quality,
Excels in Beauty.

The Prizetaker is easily grown, ripens up hard and firm, is a good keeper, and always brings an extra price. It is certainly a wonder, and nothing short of an actual trial will convey an idea of its great value. Don't miss it. Remember our seed is American grown, carefully selected, and pure. Beware of cheap onion seed. Per packet 10 cts. 3 for 25c. 12 for $1.

Early Prolific Pole Beans.

Also known as Kentucky Wonder, Homestead and Seek-No-Further.

Our greatly improved strain of these truly wonderful Beans will be a sensation anywhere. They are marvels of productivity—giving immense crops from July until frost. Large, thick, stringless pods, meaty, tender and superlatively delicious.

These remarkable "silver skin" Podded Pole Beans are everlasting bearers, and fully 10 days earlier than any other pole bean in existence. The Pods hang in great clusters from the top to the bottom of poles, and can be gathered by handfuls.

The Pods are very large and long—fully 8 to 10 inches in length and stringless, plump, round, and almost "solid meat," cooking meltingly tender, and of superior flavor.

Every State in the Union—as well as Canada sends words of highest praise for these enormously productive Beans. Every lover of Delicious Beans should have a bountiful supply.

66 Tomatoes on 1 Plant.

Philias Gauthier, a Massachusetts boy in grammar school made a big record in growing tomatoes. Tomatoes grown in a garden in his back yard won the first prize at the Worcester County Fair. His best vine, seven feet, six inches in height had sixty-six tomatoes on it. Several others were about as tall. He sold the tomatoes for seed purposes at 50 cents each. YOU CAN DO AS WELL IF YOU TRY.

The Gladiolus is one of the most decorative Plants in the garden, and as a cut flower lends itself to any arrangement. If the spikes are cut when the lowest flower is in bloom, the others will open in succession and remain fresh a week or ten days. No other flower has gained more rapidly in the public favor than the Gladiolus; this could not well be otherwise, for in addition to the great intrinsic merit of the flower, it is hardy and blooms the first season from bulbs.

In the autumn, before freezing weather they should be dug up and the tops allowed to dry down, after which the dry bulbs, earth and old bulbs can be removed. Store in a cool, dry place, secure from frost until spring planting time.

There is perhaps no flowering bulb of such easy culture, embracing the great range of color with endless combinations and variety, to equal the Gladiolus. Our bulbs are of the finest quality and will give bountiful satisfaction the first season. The bloom is continuous from the end of July until frost. Complete cultural directions with each order.

Be sure to order a good supply and enjoy the beauty of this handsome flower. No matter what price you pay you cannot get anything any better, they have been selected for those who wish to have the best to be had.

Cook's Super Giant Gladioli Collection is made up of only the very best giant flowering varieties and includes all colors such as White, Yellow, Shell-Pink, Rose, Fiery Red, Coral-Pink, Orange, Purple and many others. Many of them will grow 4 to 5 feet tall and produce flowers 6 inches or more across. For you wish a real surprise in Gladioli beauty plant Cook's Super Giant Gladioli.

This is without any exception the very finest mixture of Gladioli ever put up. Gladioli require full sunlight and are not liable to injury excepting from the use of rank manure. Plant the bulbs six to nine inches apart, the largest ones four inches and the smaller ones two inches deep. Make an early planting of the smallest bulbs first as soon as the ground is sufficiently dry and warm. Continue to plant at intervals of a week during the spring and early summer; in this way a succession of bloom may be had from midsummer until frost.

STRAWBERRIES FOR 5 MONTHS. "NEW EVERBEARING."

These New Everbearing Strawberries are so wonderful, so extraordinary—the plain truth about them almost surpasses belief. They stand alone, the greatest of plant marvels. Planters everywhere concede this. They cannot praise them enough.

Grow these and you can have bushels of delicious berries for 5 whole months—strawberries for breakfast, dinner, and supper—strawberry shortcake galore, and lots of fruit and plants to sell at fancy prices. Spring SEED PLANTS will be loaded with fine berries within 3 months and bear enormously from July till way in November. Indeed I have picked ripe berries late as Dec, and many green ones and blossoms still on. This after many hard freezes proves their amazing hardiness. I have a large Photo of one plant taken Dec. 15 that had 40 big ripe berries on it, 69 green ones and lots of bloom. Hundreds and hundreds more were just about as good, and remember these very plants had been bearing continuously since July. Need I say more? I have tried many of the so called "everbearing strawberries" but all are worthless in comparison with this splendid variety.

**PRICE.** Extra Strong Plants pure and true 12 for 90 cts. 25 for $1.50, 50 for $2.50, 100 for $4.00. All carefully packed, boxed, postpaid and insured. Price includes Premiums as offered. If no Prem. is wanted, deduct one third. Order at once—will send plants in early spring.

An Independent Laborer—Thanks Horseradish.

From a Day Laborer to a Successful Business Man in Four Years.

Rent or lease an acre of land, if you don’t own a good sized garden. Aquire a few hundred horseradish plants. Set out the plants, and wait a few months, harvest the crop, grind and bottle, and then repeat the process. By the end of the second year you should be doing well, financially, and by the end of the fourth year you will be a person of independence, if the record of Andrew Miller can be taken as an example.

Four years ago Miller was a day laborer. To-day he owns and operates a business which totaled more than twenty thousand dollars in sales last year.

It is highly improbable, however, that everyone can take the above recipe and make a fortune. For the given ingredients require mixing with much hard work, especially at the beginning of the process, and not everyone is willing to devote the amount of labor and energy Miller expended to gain his start. Also, few people would select horseradish in its native state as a foundation for fortune.

That Miller selected horseradish as the foundation on which to build a twenty-thousand-dollar-a-year business shows he is a man not afraid to step out of the beaten path.

At the time Miller started in the horseradish business he knew little or nothing about it. A neighbor of his, an elderly man, had for years raised a little horseradish, ground the roots and sold it in the naborhood. In the spring this nabor asked Miller to set out a few plants in the ground back of his house and sell them to him in the fall. This set Miller to thinking, and instead of planting a few roots he bought fifteen hundred and set them all out. Miller was working as a carpenter, at the prevailing union wages.

Work is not always plentiful for carpenters in the winter, and he thought if he desired, for the electric grinder could dispose of twice the number of roots in half the time it took with the coffee mill. But Miller did not choose to shorten his working hours. He merely employed the new machine to grind as many roots as could be pushed thru it in the same length of time he had been grinding by hand. He still worked half the night grinding and bottling, to have the days free for selling.

With the increased output Miller started after the grocers’ horseradish business, and he got it in a characteristic way. Miller persuaded them to allow him to leave a dozen bottles at each place he visited, with the understanding that if they did not sell they were not to be paid for. No grocer could reasonably deny him under the condition. Miller had faith in his work.

And this faith was justified. Miller knew freshly ground horseradish was better than that which had been ground and bottled for months, or even years. Buyers knew it, too, and it was not long before the grocers who refused to buy the new brand were insisting on having larger supplies. To-day Miller’s horseradish out sells any other brand in practically all of the stores in every town and city within a radius of thirty-five miles of his home town.

When Miller started peddling horseradish he used a horse and buggy and covered only a few miles every day. Now he has three auto trucks on scheduled routes, covering several counties.

From his sales of two or three bottles an evening Miller’s business has grown until his average daily sales are over six hundred bottles. He began by buying bottles in dozen lots. Now he orders them in carload lots. He thought he was well off the day his sales totaled ten dollars. His average weekly sales last year were four hundred dollars.

Of course this is not an enormous business as big business is considered. But it is practically a one-man business, grown from nothing in four years. It is done without a factory. Miller still grinds the roots in the same place as four years ago—on his back porch—and he still has it bottled in his cellar. He employs two men for this work now.

NEW BANANA MUSK-MELON—Crows Over 2 Feet Long.

This curious new variety originated with one of our best growers in South Jersey, and is pronounced by him the most profitable variety he has ever grown. He realized an average of forty cents each for his entire crop, as they were eagerly sought after in the Philadelphia markets on account of their great oddity of shape and appearance. They look and smell like overgrown bananas. They grow from 20 inches to 2 feet long, are very productive, with deep yellow flesh, by many preferred to any other variety. They have a remarkable and delicious fragrance. One melon will scent the house. A great curiosity and sure to attract attention. Packet 10 cts. 3 for 25 cts.

NEW INTERMEDIATE CARROT.

This is certainly the best main crop carrot ever sent out. None better for preserving and for stock feeding it is of the greatest value, its yielding capacity being perfectly enormous. Selected seed. Large packet 10c., 3 for 25c.

COOK SEED CO., Seed Specialists, WATERFORD, N. Y.
NEW EARLY CHAMPION PEANUT.

This mammoth new Extra Early Peanut is the crowning triumph of a careful Specialist, and in size, quality and yield, will far surpass any other sort. It is a surprising yielder, having produced 100 bushels per acre.

It is so early and such a robust grower that fair crops have been harvested even in Vermont and Canada. Don't fail to try it—and every boy and girl should have a bed of Peanuts in their garden. Full directions for planting etc., on every packet. Pkt. 10 cts., 3 for 25c.

EVER BEARING PEAS

A Continuous Long Season Beare

A celebrated wrinkled pea of good quality and flavor. Its season is late to very late, and is especially adapted to summer and autumn cropping. It has a remarkable branching habit. It will do well without sticks or brush. Repeated pickings may be made, for the vines continue to produce blossoms and successional crops of pods in its effort to ripen its seeds. It is a continuous bearer through a long season.

A new Japanese Climbing Cucumber.

A distinct new cucumber from Japan. The vines are extra strong and vigorous, producing a surprising amount of superior fruit on poles, fences, etc. Three times the usual crop from a given area can be grown with this variety. They are large size, nice green color, and fine for pickling and slicing. The vines and fruit being elevated do not suffer from wet weather and insects. It sets its fruit constantly throughout the season. I am sure all will be pleased with it. Pkt. 10 cts. 3 for 25 cts.

"The Japanese Climbing Cucumbers are the greatest bearers ever was. We shall always grow them. Your other seeds are doing fine—THEY ALWAYS DO."

Mrs. Reed, Springf'd, Mass.

VERBENAS,—Superfine Mixture.

Very few plants make such a gorgeous display during the season as the Verbena, furnishing more flowers for cutting, unrivaled as a constant bloomer, brilliance of color, and sweet fragrance. They grow from seed the first season. For profusion of bloom, large blossoms, and variety of colors—my selected mixture cannot be excelled. I wish every one to grow these lovely flowers.

Large Packet 10 cts., 3 for 25 cts. 12 for $1.00.

DON'T FORGET OUR WONDERFUL PREMIUM BARGAINS

After you have Sent us your Order Kindly hand this Catalog to some Interested Neighbor.

A gem among radishes. It has won golden opinions in all sections of the country. The illustration is perfect from nature, and will give some idea of their great beauty. It is absolutely the earliest radish in cultivation; their shape is perfectly globular, with rich, deep scarlet top; equally desirable for the market or home garden. My sales of this famous variety double every year. No other radish can compare with it for earliness. It is very tender, and of extra quality.

Packet 10 cts. 3 for 25 cts.

The Famous New Faxon Squash.

This new and distinct variety is very early, of medium size, unusually productive, and of the best possible quality. They cook dry, sweet and rich whether ripe or green—are an excellent keeper, thus supplying the table with this delicacy during three seasons—summer, fall and winter. Some Faxons are pale yellow, while others are green, mottled, etc., in fact it is a curious admixture of many sizes, shapes and colors. This is a characteristic of the squash. The flesh is deep orange, cavity small. Nothing excels it for pies. I consider the Faxon decidedly the best of all squashes. Many who never could eat squashes before consider them delicious. Don't miss the Faxon. It cannot be praised too highly. Every customer will thank me for advising them to try it. Pkt. 10 cts. 3 for 25c.

RED BEAUTY POP CORN.

This remarkable new variety is the most astonishing yielder ever found among Pop Corn. Its enormous yields seem almost fabulous, for it produces 4 to 12 good ears on every stalk. Pops well soon as cured. Ears are 6 to 8 inches long, filled with nice colored grains—very handsome. Stalks grow 6 feet high. Prof. Witherell of Dav-epor, Iowa, says: "I selected to stalks on my farm, with 12 ears, on an average of 12 ears to the stalk; one stalk had 15 ears." Was such a yield ever before heard of? Its popping qualities are remarkable, very large, and of delicious flavor; 3 pints will make 1 bushel popped. You can raise too bushels of ears on an acre. Be sure and include this Pop Corn in your order. Pop Corn is a great money crop. Choice seed, genuine, pkt. 10 cts., 3 for 25c.
MARKET GARDENER’S BEET.

Undoubtedly one of the best novelties ever offered, and it receives much praise from my customers. One sowing only is needed for summer and winter use. Deep red, enormous size—6 to 8 inches in diameter—and just splendid quality. Pkt. 5c. 6 for 25c.

Coffee Seed Makes Hens Lay.

"Your Coffee makes the finest chicken feed in the world. They just shell out the eggs." Wilfred Brown, Wayne Co., Mich.

LARGE RED WETHERSFIELD ONION.

A time honored variety. Immense crops are annually grown. It is everywhere a large yielder of fine, handsome, large onions of excellent quality, for family use. It also finds a ready sale in all markets. All my onion seed is unsurpassed, and is grown from best selected solid bulbs—pure and true.

 Beware of cheap onion seed that is often raised from scallions and unsalable rubbish for there is much of this kind afloat. Remember in seeds "like produces like"—and nothing in the world is so dear as cheap seeds. Packet 5c. 6 for 25c. 24 for $1.00.

Country Gentleman Sugar Corn. The Most Delicious Ever Crowned.

This improved variety is the finest of all sweet corn for home use. None other is so delicious. The ears are good size, 8 or 9 inches long, and produced in great abundance. Many stalks bear 3 to 4, and sometimes 5 or 6 plump ears. Its long, many kernels are full of sweetness, the finest texture and the flower of the rapids. Richest Flavor, Deepest Grain, Smallest Cob, Greatest Yielder.

The moment you taste this luscious, tender corn you will be a convert to it, for its flavor will delight an epicure. The kernels fairly melt in your mouth. It retains its delicious tenderness for a long time. A very strong grower; season medium. I recommend it especially for private gardens, and to those having the choicest retail trade. Selected strain, large Pkt. 10 cts. 3 for 25c. 12 for $1.00.
MAMMOTH MELTING SUGAR PEAS — Most Delicious of All.

Rightly named. The sweet, brittle, succulent pods are cooked same as string or snap beans — pods and peas eaten together. A “dish fit for a King.” Exceeds all other Sugar Peas in size, tenderness and sweetness of pods, and delicious flavor. These luscious peas are too little known. Every one should grow them.

Deliciously Rich, Tender, Prodigiously Prolific.

They contain so much sugar, starch, and gluten, making them most nutritious. Height of vines 4 to 5 feet, bearing their immense pods in the greatest profusion. Every garden should have a liberal supply of this superior vegetable. Peas are very scarce this year, but I have a splendid stock as well as of all other seeds. Remember I send EVERYTHING by mail PREPAID and guaranteed safe arrival.

Per Packet 10 cts., 3 for 25 cts.

NEW EARLY WHITE VELVET OKRA.

Okra is a fashionable Southern vegetable, of the easiest growth, and matures first season even in the extreme north. Pods are used when young and tender, are excellent for soups, stews, etc., and really delicious when pickled.

The White Velvet is best of all Okras, very early and distinct. The pods are round, smooth, and handsome; much larger than any other and of superior flavor and tenderness. Very prolific. Why not try Okra this year? You will surely like this splendid new variety. It is one of the good things no one should do without. Packet 5 cts.

NEW EARLY TREE TOMATO.

I think this more nearly resembles a tree than any other. It stands up like a tree, with a stiff, vigorous upright stalk with fruit well up above the ground. Bears very abundantly, fruit good size, smooth, bright red color, and of superior flavor. A valuable, curious acquisition, very ornamental and useful. I am sure all will be pleased with it. Pkt. 10c for 25c.

After You Have decided to order these famous Peppers—please take a good look at my two special Premiums—Stereoscope and Colored Views—and wonderful Talking Machine. New Short-Stem Drumhead Cabbage. Always Sure to Head.

BEST MONEY MAKER.

Beyond all question THE GREATEST cabbage for the Farmer, Gardener, and Village Grower. Enormous heads of finest flavor.

SUREST HEADER OF ALL.

Heading where others fail. Receives nothing but praise from Maine to California; from Canada to Florida. Single heads sometimes weight 50 pounds.

This Peerless Cabbage combines, to a wonderful degree, all desirable requisites. It has a very short stem, grows very compact. Heads are EXTRA HARD, SOLID, ROUND, flattened at the top. They grow very uniform in size and shape, as shown in the above illustration. The heads attain enormous size, and are always of the finest quality. It will produce a crop even where others fail.

Friends, if you order but 3 things from this catalog I hope one will be this great cabbage. Seed from long selection, pure and true. Packet 10 cts. 3 for 25c. 12 for $1.00; 30 and any $3.00 Premium for $3.00 all postpaid.

Cook's Golden Giant Sugar Corn. A Corn of Superb Quality.

COOK'S GOLDEN GIANT SUGAR CORN is a dwarf growing early variety. The plant attains a height of four feet, usually bearing two or more ears to the stalk. These are compactly filled with kernels which are so deliciously sweet, tender and milky that some people claim that "it is the sweetest corn on earth." It is better than Golden Bantam and ears are very much larger. A very desirable variety for home or market gardeners. The most valuable garden acquisition of recent years—the finest type of Sugar Corn ever produced. When once grown or eaten no other corn will satisfy. It has a superlative merit and wherever grown is called "a perfect corn." It is much earlier than the Golden Bantam—ears more than twice the size and fully three times as productive as that famous variety. Its quality is most delicious—rich and sugary—almost melting in your mouth, what more need be said? This corn is so far ahead of all others there is simply no comparison. It is the crowning triumph of an expert from careful crossing and selection. Market gardeners can control any market with this matchless corn, and no other can bring him so much money. Sold in sealed packets only—each packet sufficient for 50 hills 15 cts. each; 4 for 50 cts., 10 for a dollar. 30 Packets and any $3.00 Premium for $3.00 all postpaid.
Cook's Frost Proof Cabbage Plants

Will Double Your Profits. Why?

BECAUSE THEY MATURE HEADS WHICH CAN BE MARKETED TWO OR THREE WEEKS EARLIER THAN HOME GROWN PLANTS AND YOU GET EARLY MARKET PRICES FOR YOUR CROP WHICH MEANS MORE MONEY.

Our plants are grown from the best strains of seed, in the South along the Sea Coast of South Carolina, where the soil and climatic conditions are just suited for growing Tough, Hardy, Frost Proof Cabbage Plants. Plants are ready for shipment when from eight to ten weeks old, the buds are then purple and the outer leaves a reddish brown; when in this condition they can be shipped to territory farther North and planted in the open ground a month to six weeks earlier than home grown hot bed or cold frame plants. The top of the plant does not grow until your regular weather opens up, but the roots grow from the time the plants are set. They have stood a temperature of eight to ten degrees above zero without injury: the land freezing or the plants being covered with ice, sleet and snow did not affect them. Headed Cabbage is ready ten days to three weeks earlier by using our plants than by using home grown plants. Frost Proof Cabbage Plants may be shipped to any point where they will arrive within four or five days by parcel post, and should be planted four to six weeks earlier than home grown plants. The plants will be somewhat wilted and have a hard stunted appearance when received, which will be disappointing to persons who have never used them before. Regardless of their appearance, however, they will produce the results you want, which is Extra Early Cabbage.

Order Early and state about what date you wish your plants sent. We will ship just as near the time desired as weather and other conditions permit.

To get the full advantage of these Frost Proof Cabbage Plants they should be planted a month or six weeks earlier than you would plant home grown plants. We fill orders from December 1st to May 1st. Be sure and tell us when to ship them. Please remember that

When we receive your order for those plants, we forward it to our Southern growing stations which takes a couple of days, and the plants are shipped direct to you from our growing station. Plants cannot be dug or shipped when buds are wet. We sometimes have a week or ten days of continued wet weather which prevents shipment. You will receive your plants just as near the day you want them as it is possible for us to ship them, and we suggest that you send your order in two or three weeks before you expect to set the plants and you will then get them on time. We have millions of them growing. No order too large for us to handle promptly.

VARIEITIES. We can supply our FROST PROOF CABBAGE PLANTS only in the following varieties: Early Jersey Wakefield, Charleston or Large Wakefield, Early Flat Dutch and Succession. No Less than 100 plants Sold. All plants sent by Parcel Post charges prepaid.

Prices by Parcel Post, all charges prepaid. In lots of 100 to 400 plants at 50c per 100 plants; 500 for $1.75; 1000 for $3. Order in even hundred or thousand lots, viz., 100, 200, 300, 400, 500 or 1000. These prices are for even quantities of one variety to package; if you ordered 200 of one variety and 300 of another variety you would pay $1.75 at the 100 rate. Special prices will be made on large lots. If you want them sent Special Delivery, add 10 cts. extra to your order.

Cook's Sturdy Southern grown Cabbage plants are TOUGH and HARDY. They mean many extra dollars to the wide awake gardener or farmer who has the good judgement to use them.

The above prices are rock bottom, no discount or Premium given, but you can order them by the thousand at the thousand price and sell them by the hundred at the hundred price and thereby make a good profit.

Table Turnips.

**Purple Top White Globe Turnips.** This is a well-known table turnip, also called Red Top White Globe. The roots grow to good size and are nearly round in shape and they show a rich purplish red color on the upper part of the roots which extends above the surface. The lower half is pure white, the flesh is firm, crisp and is of remarkably mild flavor. This is a first class home and market variety and on account of its shape will outyield any other variety grown. Try it this year.

Extra Early Purple Top White Milan Turnip Seed same prices as the Purple Top White Globe.

Mangle Beets.

**Mammoth Long Red Mangle Beet.**

This is the heaviest cropping and largest of all Mangels. Under favorable conditions this variety yields from 35 to 40 tons per acre. The roots grow from 3/4 to 2 feet above the surface and are frequently 2 feet or more in length by 6 inches in diameter. Skin bright red; flesh white, veined pink. They are easily harvested because of their cylindrical shape and heavy growth above ground. Packet 10 cts. ounce 15 cts. 4 ozs. 25 cts. 1 lb. 40 cts.

Golden Tankard Beets at same prices.

Davis Perfect and Early Fortune Cucumbers

The Cucumber should be grown in every garden to furnish both large fruits for slicing for table and the small young fruits for pickling.

**Davis Perfect Cucumber** is no doubt the most popular of all. Ideal shape perfect size, and in eating quality is unsurpassed by any other variety.

The Early Fortune Cucumber has been proclaimed the finest type of White Spine Cucumber ever grown.

We can also supply you with Long Green Giant Cucumber, Chicago Pickle Cucumber and Japanese Climbing Cucumber.

Prices for above kinds, Packet 10 cts.; oz. 15 cts.; 4 ozs. 20 cts.; 1 lb. 50 cts.

Dear Friends:—I offer you these remarkable Potatoes because I honestly believe them decidedly the BEST IN THE WORLD. Their incomparable table qualities, extraordinary earliness, enormous productiveness and beauty make them indispensable to every Home Garden. When raised for market, their easy-growing and easy-selling qualities render them a money-maker beyond compare.

I have been an enthusiastic grower of fine Potatoes—multitudes of them—for over 30 years and can truthfully say I never found their equal—or anything near it, in traits that go to make a perfect potato. I want you to try them. It will be many dollars in your pocket—and comfort in your home. I want you to grow a years supply for your own table—and enough over to plant, and bring you in a snug little fortune. You can hardly imagine how good and how early they are. Grow them once and you will grow them always. Read Testimonials on another page. I could fill my entire catalog with such as these.

I need only add, the Early Six Weeks are unusually healthy, hardy and vigorous; grow so quickly enemies trouble little. Tubers are very smooth, slightly pink, and always cook dry, sweet and floury. They are the very best of keepers, remaining hard and plump, and retain their matchless flavor clear up to July. Hundreds have testified they have positively produced fine eating potatoes six weeks from planting.

Beware of spurious seed. Thousands have suffered. Get the genuine pure and true. Grow in the north where WHOLE FIELDS with ordinary culture averaged OVER 250 BUSHELS per acre of handsomest, cleanest potatoes you ever saw. THIS is the hardy stock I offer you. Don't plant old, run-out sorts. You lose dollars every time. Grow this money maker and sell seed to your nabor's at a big profit. Give your boy and girl a chance to make money also—and win a Prize Watch. It will pay in more ways than one.
